# Celtik® Curb

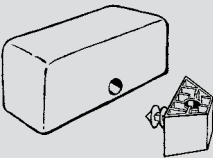

## UNITS

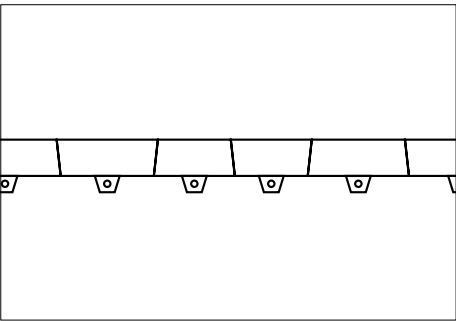

### C3-ANCHORS

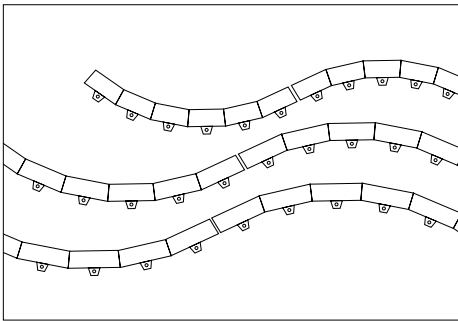

NOTE: in order to facilitate orders by half layer (13 lin.ft.) each row must include 2 boxes of anchors. Each box contains 16 C3-anchors and 16 nails.

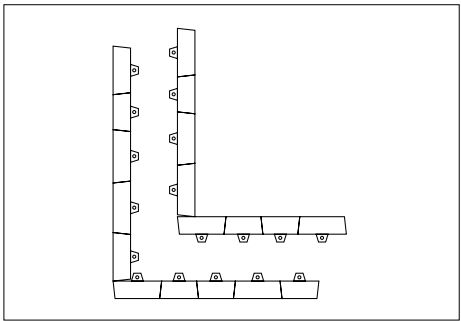

## LAYING IDEAS

For a straight line curb, use alternating angled curb units.

For a concave or convex curve, lay curb units in the same direction.

For a 90° corner, simply align curb units at this angle.
