

PERMACON

Répertoire des hachures MAÇONNERIE

Téléchargez la bibliothèque de hachures

Les miniatures des hachures présentées dans ce guide facilitent la sélection des hachures pour des présentations réalisées à l'aide de logiciels de CAO ou autres logiciels de publications. La bibliothèque des hachures est classée par ordre alphabétique de produits. N'oubliez pas de télécharger la bibliothèque à partir du site Internet Permacon. Lorsque vous téléchargez la bibliothèque de hachures, vous noterez que IMP/MET a été ajouté à la toute fin du nom des fichiers. Cela indique si la hachure est en métrique ou en impérial.

Si vous avez des questions au sujet de ce guide ou pour un complément d'information, n'hésitez pas à contacter votre représentant Permacon.
