Répertoire des hachures **AMÉNAGEMENT**

Téléchargez la bibliothèque de hachures

Les miniatures des hachures présentées dans ce guide facilitent la sélection des hachures pour des présentations réalisées à l'aide de logiciels de CAO ou autres logiciels de publications. La bibliothèque des hachures est classée par ordre alphabétique de produits. N'oubliez pas de télécharger la bibliothèque à partir de la page Ressources du site Internet Permacon.

Les noms des hachures sont divisés en 5 parties séparées par un caractère _. Le nom est suivi d'une lettre qui indique s'il s'agit d'un pavé (P) ou d'une dalle (S). Ensuite une ou plusieurs lettres indiquant la présence de pavés ou dalles de différentes dimensions (exemple ABC). Le dernier code identifie le motif avec une lettre et un chiffre. En dernier lieu, lorsque vous téléchargez la banque de hachures, vous noterez que IMP/MET a été ajouté à la toute fin du nom des fichiers. Cela indique si la hachure est en métrique ou impérial.

Si vous avez des questions au sujet de ce guide ou pour un complément d'information, n'hésitez pas à contacter directement votre représentant Permacon.

L'équipe Permacon

Table des matières

Dalles

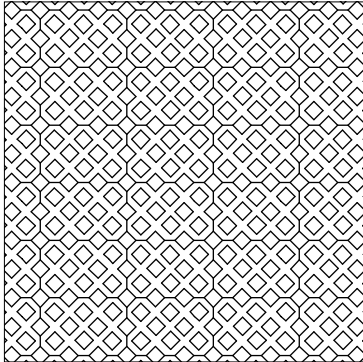

- 03 Dalle à gazon
- 04 Cassara
- 05 Cité
- 06 Esbelto
- 07 Méga Melville
- 08 Melville 50
- 09 Melville 60
- 10 Melville 60 Textureguard
- 11 Melville 24 x 24

Pour assurer une qualité accrue du rendu, Permacon recommande d'ajuster le point d'origine de la hachure du pavé Virage dans AutoCAD :

- Cliquer sur *Définir l'origine* dans le menu du haut *Éditeur de hachures*
- Choisir la première option (*point d'origine au coin inférieur gauche*)
